Clear Packets Announces Enterprise Security and Employee Internet Management Gateway

Monday May 5, 11:45 am ET

PLANO, Texas--(BUSINESS WIRE)--Clear Packets today announced general availability of its FMS-Enterprise Gateway, the first true enterprise class integrated solution for **virus protection, web security, information protection, content filtering and employee internet management.**

FMS-Enterprise Gateway is a major advancement in being able to precisely identify known harmful programs such as **viruses, worms, malware, spyware, P2P** clients or any other programs right on the wire. This technology enables it to kill any known harmful programs on the wire before they reach their target and do the damage. Its unique **stateful URL-domain active tracking technology** enables advanced web content filtering for network security and employee internet management.

FMS-Enterprise Gateway raises the bar to next level in terms of high availability (HA), scalability and performance. Its breakthrough simplicity and enterprise class high performance makes it the first integrated solution offering:

- **identification and termination of known viruses on the wire**, and empowerment of the administrators to create own virus filters for any found viruses in **less than 1 minute**
- advanced web content filtering using URL-domain active tracking technology for employee internet management and security
- **business information and intellectual property** protection and leakage prevention
- network application control based on user profile
- powerful, fine grained internet and intranet access control
- blockage of unwanted time wasters or unethical websites, even blocks partial domains
- real-time view of all network activity and real-time bandwidth usage summary for every user
- ultra deep packet inspection and IP/port matching filter based IDS/IPS
- pin-point log of all known virus spread attempts, blocked website access attempts, business information leakage/theft attempts etc.
- ultra compact storage of all internet and intranet activity log, 24/7/365, for security auditing and regulatory compliance at **storage cost about \$1/employee/year**

- 24/7 automatic protection against latest and emerging known threats

and much more, in one easy to manage box.

FMS-Enterprise Gateway keeps the **network fully available even during software upgrades** through extremely careful software design. As a true enterprise class product, it gracefully handles extreme load conditions and switches to **port bypass hardware HA mechanism** in catastrophic events to maintain 100% network availability.

About Clear Packets, LLC
